

# Building Self-Deployable Community Networks

Senthilkumar M

# About me

I am Senthil Kumar M. I hail from Madurai, Tamilnadu-India with a great passion for innovating through technology to solve real life problems. I have innovated in fields like wireless network, defence, maternal healthcare, and safety solutions and filed nearly 10 patents for the same. Though I began my career as an engineer in – Samsung | Qualcomm – Fortune 500 companies, I realised that I am called to be an entrepreneur. I quit my job to found two tech startups, GeoMeo and JioVio, in urban infrastructure and healthcare sector respectively.

# Agenda

- Community Network in India
- Problem in setting up community network in rural
- Self deployable Community network
- Impact of community network

# Self Deployable

# Solar Powered

# Mesh Network

Offline

Enhanced with Auto  
Mobility

Thank You
